

DTSC – Gathering of the Faithful 2018

The forecast called for cool and wet weather, but it did not deter 70 plus British car enthusiasts from bringing out their LBCs for a warm Car Show. We met many new friends looking to share the story of their restoration or looking for advice on doing theirs. Dave Lang, John Scram, Alan Sheets and others were happy to share their knowledge and pass out DTSC cards with the hope of then joining our merry band.

There was a great food vendor there early with homemade pulled Pork, hot dogs and other goodies and a taco truck arrived later. Later he went out for coffee by popular demand. We met new faces and saw some old ones with some very interesting cars.

Our club member Steve Riddle stopped by with his impeccable TR6 covered in mud from an Alcan 5000 Autocross in Alaska. Steve had a huge crowd around him telling the story of his adventure. Ken Pardonnet was one of the first there listening to Steve detail his adventure. It will be washed tomorrow. PS: Recognize Stu Ehrhardt's DTSC jacket in the picture from last year's "Year End Party" auction.

The wet weather held off until around 1 pm. Then a light drizzle started. Still most attendees held out until around 2:00 when they started to trickle away. It was a fun time. Thanks to all that attended.
